

## **CITY of SANFORD**

### **CONSERVATION PROGRAM FOR ULTRA LOW FLOW TOILET**

The City of Sanford encourages water saving practices, water reuse and conservation. As part of our water conservation program, the City offers a rebate program for customers that install ultra low flow toilets (ULF 1.6 gals).

Customers may receive a \$50.00 credit on their water account for replacing a water-wasting toilet with a ULF toilet. Customers may replace a second toilet and receive a \$25.00 credit. The City will give no more than two credits per account.

The customer must present an original, dated sales receipt identifying each ULF toilet to the Water Department. Credit will be applied to the next month's water bill. Any remaining credit will be applied to subsequent bills until all credit is used. The customer's account must be in good standing to receive credit.

Customers inside the City limits may place the old toilet at the curb for bulk trash collection.

### CONSERVATION PROGRAM FOR ULTRA LOW FLOW TOILET

Customer Name: \_\_\_\_\_

Customer Address: \_\_\_\_\_

Customer Phone: \_\_\_\_\_ Utility Account Number: \_\_\_\_\_

I certify that the following is a true statement:

I have attached the original (dated) receipt for each ULF (1.6 gal.) toilet in order to receive a onetime rebate. A \$50 rebate will be given for one replacement or \$75 maximum rebate for two or more replacements. I understand that no cash refunds will be given and the credit will be applied to my account.
